Committee In Charge Of Drawing

The following committee has complete charge of the registration tickets and will have complete charge of the drawing on Tuesday, May 29, 1951:

Hon. Hustin V. McMillan - Mayor of West Palm Beach

Phil O'Connell - State Attorney and President of the Chamber of Commerce

Lloyd Bell - Ex-Mayor, and President of Folder-Bell

A. P. Patterson - Bay Scout Executive Director

Here's How It Will Be Done!

On the evening of May 29, 9 P.M., at the Grant Furniture Company, the committee in charge will meet for the grand drawing. The registration tickets to that date will be in a large container which will be kept locked until the final time and, after being well stirred up, the Mayor, also in charge on the committee, will then do the honors and reach into this large amount of registration tickets to pull out the winner—in full view of all those who may be present—in addition to the committee members. Registrations are free and may be made up to 8 P.M. on May 29, 1951—absolutely final dead-line. You do not have to be present at the drawing to win.

Your Moving Worries Are Over

Brandon Transfer and Storage Co., located at 425 Claremore Dr., West Palm Beach, does hauling.

This modern transportation firm is noted for the completeness of service in local and long distance moving, hauling, crating, shipping and storage. They have the most complete equipment. All goods are transferred and handled with great care.

In the undignified hurry of moving days there is no name in this section of the country that sounds better than this up-to-date company, as they take all the worries and leave their customers at business as usual or attending to their social duties. There is no interruption in the schedule and never a worry.

The long distance transfer and moving service is equipped

with trucks and vans of all sizes. They can move you anywhere the roads go all at one time. All they have to do is to call them on the phone and they will come get the key and permit you to take down your pictures, pack everything, load it, and have it in place in the new home, ready for your arrival. They have people who are accustomed in the handling of good furniture and interior furnishings. It is almost just how to take care of them.

In this review we desire to call the attention of the people to the attractiveness of their service and to say that they are always on the lookout for new features that make it more complete.

For further information call 4812 West Palm Beach.

WRITING MADE EASIER

Many many years ago before the invention of the printing press, people had to write everything by hand, from short notes and letters to complete books. Then came that wonderful invention called the printing press. That made it possible for anyone who could afford a very expensive outfit to print their words. The only catch was that the only ones who could afford this luxury were large companies and corporations. But not all of them had the printing press to do to warrant such an investment. Today the picture is different. Since the invention of the more powerful small firms and even private individuals can afford the luxury that once belonged only to a few. The company that makes

this possible for the people around Palm Beach as well as Belle Glade is the Palm Beach Typewriter Co., located at 306 Olive Ave., West Palm Beach. They offer a large selection of typewriters and also repairs, sales and supplies. In making the review of the more prominent firms who offer valued service to people in Belle Glade, we would like to recommend the Palm Beach Typewriter Co., for sales and service on all makes of typewriters. They also offer a wide selection of gift items such as Parker Pen sets, leather goods, diaries, desk pads and memo. They also have Electric typewriters and a complete delivery. They also have Royal Typewriters and portable electric typewriters. If you wish to call, the phone is West Palm Beach 5144.

WHY BUY NEW FURNITURE?

Throughout this section Deror Interior Decorators, located at 305 N. Dixie, in West Palm Beach, is known as one of the firms engaged in the business of furniture upholstery and interior decorating. They have advanced a position in the trade in this line that brings an ever increasing business and as a consequence the place is the scene of continued activity.

There is "no branch of this work that they have overlooked. They have you ready in a matter of days while other firms keep your furniture for weeks.

Most correct and reliable upholstery and interior decorating is an art rather than a trade and requires a training that can only be secured by actual experience. That is the work of the Deror Interior Decorators is in this universal favor for it is in charge of one of the most experienced upholsterers in the country.

This reliable upholstery service upon the efficiency of its plant. When in need of any furniture upholstery or interior decorating, call on the phone number 3-3930.

AUTHORITY ON FOOTWEAR

Brice Shoe Store, at 2316 N. Dixie in West Palm Beach, is famous for exclusive brands of women's and children's shoes. The able management's policy of carrying the best of quality in the latest styles has won for this admirable establishment a patronage that evidences its popularity.

It has long ceased to be a secret among the well dressed ladies of the community that the very latest styles can be had in the highest quality.

In their endeavor to render the most complete service to their patrons they have overlooked not even the smallest detail.

Service, real, metropolitan service, that is the policy of this store and it has become a well established fact that every pa-

tron be satisfied no matter what may be necessary to do this.

Mr. Brice has had a long and varied experience in this field and is considered an able business man and authority on footwear.

If you haven't had an occasion to become acquainted with Brice's, don't fail to do so during their Educational Sale, now in progress. Learn where to buy and save. They have many satisfied customers in all the surrounding territory who have learned that real dependability and efficiency go hand in hand when dealing with Felder - Bell, Inc. Lloyd C. Bell and associates are pleased to give you all vital information pertaining to appliances in general and you can depend upon it. They are people that know what they are talking about and are dependable.

The many friends of Felder-Bell, Inc., in this and surround-

ALLIED MOTORS

Years of high quality service has proven Allied Motors, located at 4th and N. Dixie in West Palm Beach to be Florida's most popular automobile dealer.

Allied Motors has gained a splendid reputation in a large part of the country surrounding the city for the dependability of their cars. They fully realize the high standard the business has attained and every car they offer represents fully as much value, and at times much more than many of the new cars put out today, and the price places them in the reach of those who cannot afford new ones.

It is now possible to purchase these cars with the same expectancy of service as any other

article we use, and the new owner need not feel as he once did, the necessity of apologetically for his second hand automobile.

These gentlemen take the same interest in the sale of one of their used cars as they would in a transaction of the first magnitude. Convenient terms are made as in the sale of new cars, and an interest in the purchaser's satisfaction is maintained at all times. The salesmen are men at the head of this business who are very courteous gentlemen who will be able to give you sound advice on your automobile problems if you will confide in them. Their responsibility and integrity are not to be questioned.

For free information phone West Palm Beach 3-5060.

NOW'S THE TIME FOR CATTELMAN TO THINK ABOUT WINTER FEEDS

By Spuds Johnson
Good green pastures, new calves, and cattle getting sleek and fat are pleasant sights indeed for the cattlemen in spring, but the wise cattlemen also will be thinking about feed for his herd next fall and winter.

Cattlemen have about three months in which to plan and act to produce feed crops and to handle their pastures in such a way that there will be feed for their animals during the cool season of the year. So while they are enjoying seeing green pastures and fattening cattle now, they also should be planning for fall and winter, according to Dr. R. S. Glascock of the University of Florida Agricultural Experiment Station.

Just how the cattlemen will manage his pastures and what kinds of feed he will produce for winter depends on his individual land, resources, and conditions, the Experiment Station animal husbandman points out, but every cattlemen should endeavor to make his pasture go as far as possible into the fall and produce as much feed as possible for winter use.

During the winter, when most pasture plants are frosted green or mature and woody, extra feed is needed more than at any other time of the year. Therefore, Dr. Glascock urges cattlemen to begin doing something about winter feed now so the crops can be made by late summer or early fall. He recommends preparing and planting improved pasture, planning grazing so a good hay or silage crop can be obtained also from pastures, planting such crops as Alyce clover for grazing or for hay and grazing, making arrangements for storage of home-grown feed for winter use, planning to produce or purchase protein feeds, and by fertilization, rotation, and mowing (if necessary) keeping pastures in a highly nutritious condition as long as possible.

When cattle graze nutritious pastures all summer and well on into early fall they enter the winter period in good condition, and with a little extra feed, are well during the season when grazing is sparse. In this connection, the Experiment Station worker recommends "reserving" some pasture — taking stock off it in late summer — so it will be in good strong growth in the fall.

Now's the time to plan and begin action on the problem of winter feed.

HOPES BRIGHT FOR CUBA MEXICO, U. S. AGREEMENT

Hopes are bright for the international agreement, worked out jointly by the United States, Cuban and Mexican tomato growers, which would substitute import quotas for the controversial tariff, President Luter Chandler, of the Florida Fruit and Vegetable Association reports. The Senate is now considering the measure.

GLADES CATTELMAN ARE STORING CORN FOR FEED

Glades farmers are rapidly preparing to store and feed some-grown corn to their cattle, according to Assistant County Agent H. L. Speer.

Three storage buildings with a capacity of 37,616 bushels of corn have been completed and plans for eight others, with a total storage capacity of 296,826

bushels of corn, are in progress. The buildings will make it possible to store and feed home-grown corn with the required amount of high protein feed added at a much lower cost. The better facilities are expected to help improve the quality of beef produced in this area.

THE COWBOY IS A LADY

Continued From Page One

naturally fell to her. And she seemed, in her interview, to be all set to enter her new position for she confessed that she has always liked animals and enjoys working with them.

With youthful enthusiasm, Miss Peppard said, "Belle Glade seems like an exciting town where anyone can accomplish anything if they set their mind to it and are willing to work for it." And with a set of just the reporter got the impression that she meant to achieve her goals with as much hard effort as is necessary.

Now Miss Peppard travels up from her home in Miami several times a week gathering facts and figures and overseeing the ditching and diking operations in progress. Grassing the entire area with advice from local grass experts is the next step.

"By November, we should be ready to stock the ranch," Miss Peppard says.

SERVICE

(Continued from Page 1)
George H. Ashley of Belle Glade has recently been promoted from Corporal to Sergeant in the United States Air Force. Sergeant Ashley is currently stationed with the 58th Strategic Reconnaissance Squadron, Eilson Air Force Base, Alaska, where he is an aircraft engine mechanic. The 58th

Squadron, a unit of the Air Weather Service flies regular missions to the North Pole and over the Bering Sea area in search of long range weather data. Specially modified Superfortresses are used in carrying out these missions.

The son of Mr. and Mrs. Ray Ashley of Belle Glade, the local airman attended the Belle Glade High School. Prior to his enlistment in the Air Force in January, 1949, he was employed by the Farmers Co-op of this city.

Ashley received his basic training at Lackland Air Force Base, Illinois. Upon receiving he was assigned to the 58th Squadron in Alaska.

Miss Schug is serving with the 4728th W. A. F. Squadron stationed at Norton Air Force Base.

An accomplished soloist, Miss Schug is co-conductress of the squadron choir. She also is script writer for the "Stars and Stripes" paper.

Pfc. Marie Maxine Schug, daughter of Mr. and Mrs. Harry Schug, Chosen, will appear on a television program May 19, (Army Air Force Day) over NBC network with a group of eleven other girls from her squadron.

Miss Schug is serving with the 4728th W. A. F. Squadron stationed at Norton Air Force Base.

An accomplished soloist, Miss Schug is co-conductress of the squadron choir. She also is script writer for the "Stars and Stripes" paper.

It's the only new-type engine in any "new car"

Chrysler FirePower

Finest engine ever put in an automobile

180 HORSEPOWER

With so many engines claiming newness... how can a FirePower be the only new type engine today? The answer's very simple, and one you ought to know before you invest in a car.

The fact is that engine "improvements" happen every year... but a basically new motor car engine is a very rare thing. And FirePower is the most basic new development since Chrysler introduced high-compression in 1924!

To get to the heart of the matter, just go to the heart of the engine... the combustion chamber where the spark fires gas into power. Here Chrysler brings you something no car has had till now... a Hemispherical combustion chamber... the only perfect and ideal combustion chamber in any passenger car.

Here the same amount of gasoline delivers you

far more energy than it could in any other car.

What this means to the man at FirePower's wheel is impossible to tell you till you take that wheel yourself. FirePower's 180 horsepower can outperform any other engine on the road, even on regular grade gas.

Remember, too, that Chrysler now offers the wondrous road-ease of new Onflow shock absorbers with twice the shock-absorbing power of any others... and the exclusive safety and delight of Hydramatic power steering which takes four-fifths of the work out of steering! You can learn for yourself how Chrysler has changed your motoring life by seeing your Chrysler dealer now!

BELLE GLADE, FLA.

Park Director Lewis G. Scoggin reported from Highlands Hammock State Park, one of the three outstanding natural parks in the United States, that nearly 100 acres of that park had been burned over by fires started from outside the park. He and 75 delegates to the Florida Park and Recreation Training Institute, which met at the park for their annual week's training period, worked with the park crew and firemen from Sebring and Avon Park to bring the fire under control. He said the danger of further fires was serious because the Park Service has only one 1932 fire truck which, this time as in other fires, broke down shortly after it reached the fire.

More than 300 acres of Tomoka State Park, near Orlando, were burned last week, according to a report at State Park headquarters from Mrs. Elleen Butts of Orlando, acting chairman of the Park Board, who witnessed the fire. The Park Service, she said, has no fire fighting equipment there and no other fire protection. She said it was reported to her that fires were set deliberately and that county fire rangers believe the fires were started after they had back-fired the first ones.

A third State Park, on Anastasi Island, south of St. Augustine, was partially destroyed by fire which has finally burned itself out, according to Park Service reports here. There is one part-time employee at this State Park and no fire fighting equipment.

DODGE TRAFFIC, LIVE DANGEROUSLY, FHP SAYS

Director H. N. Kirkman of the Florida Highway Patrol today termed the act of dodging vehicles in heavy traffic by pedestrians as the beginning of a dangerous habit.

He described the act as "subconsciously performed," explaining that pedestrians are not alert to the real danger of crossing the street. He stated that the number of automobiles is steadily increasing and the chances of injury or death to a pedestrian has become greater.

He deplored the attitude of the pedestrian of 1951. "Forty years ago when the horseless carriage was driven down the street, people got out of the way," he said, "but nowadays it is just the reverse—one pays any attention to the motor vehicles being driven up and down the thoroughfares of the nation."

Kirkman also warned pedestrians that automobiles are faster and their speed is not as easily determined as that of other models. He estimated that a car going 27 miles an hour is proceeding eight yards for every one of the pedestrian walks. He added that a pedestrian cannot cross the street or highway if the car is going forty yards away, when it is seen.

Sixty Persons Killed in Traffic Accidents Last Year
Sixty persons, only seven less than the corresponding period last year, were killed in traffic accidents in April, the Florida Highway Patrol reported today.

The Patrol said that rural accidents accounted for 45

The number of stockholders of the American Telephone and Telegraph Company reached 1,000,000 today, Southern Bell Manager Bigbee announced.

As the 1,000,000th point was attained, there were 14,477 stockholders in Florida, owning \$35,961 shares.

"The Bell System is the only American business with such a democracy of ownership as to have 1,000,000 owners," Mr. Bigbee pointed out. "The people in all walks of life who have invested in the Bell Telephone business, and thus become stockholders, live in 19,000 cities, towns and rural areas in the nation, including Florida."

Mr. and Mrs. Brady Denton, of Saginaw, Mich., are joint owners of the millionth certificate representing stock. He is an automobile salesman—typical of the average Bell System stockholders, who are farmers, business men, clergymen, merchants, teachers, widows and deaths. Those killed included 24 passengers, 20 drivers and 16 pedestrians. There were forty-nine fatal accidents, indicating eleven wrecks in which more than one person met death.

Patrol records reveal that six counties which previously had shown no traffic fatalities for 1951 saw the results of the grim reaper's scythe for the first time in April. They included Lee, which reported three killed in one accident and Monroe where a father and son died in a wreck near Key West. He deplored the attitude of the pedestrian of 1951.

Forty years ago when the horseless carriage was driven down the street, people got out of the way," he said, "but nowadays it is just the reverse—one pays any attention to the motor vehicles being driven up and down the thoroughfares of the nation."

Kirkman also warned pedestrians that automobiles are faster and their speed is not as easily determined as that of other models. He estimated that a car going 27 miles an hour is proceeding eight yards for every one of the pedestrian walks. He added that a pedestrian cannot cross the street or highway if the car is going forty yards away, when it is seen.

Sixty Persons Killed in Traffic Accidents Last Year
Sixty persons, only seven less than the corresponding period last year, were killed in traffic accidents in April, the Florida Highway Patrol reported today.

The Patrol said that rural accidents accounted for 45

other "hometown" folks. Funds supplied by people who have invested in the Bell System, like the Dentons, have made it possible for Southern Bell to spend \$109,800,000 for additional facilities in Florida between January 1, 1945, and March 31, 1951, Mr. Bigbee said.

Telephone service demands in Florida are on the increase, Mr. Bigbee said, calling for large amounts of additional facilities yet to be installed. Funds for new facilities do not come from customer's monthly payment of their bills but must be raised in the form of new capital. Telephone earnings must be such as will attract the funds of people who have funds to invest, Mr. Bigbee declared. "That is why it is essential that the Telephone Company in Florida be financially strong, with adequate earnings to do the job that the people of the state want done," ette, Liberty, Okeechobee and Suwannee.

GMC CONDUCTS DIESEL TRUCK SERVICE SCHOOLS

Pontiac, Mich.—Since last December four mobile GMC Diesel truck service schools traveling throughout the United States and Canada have trained 740 Diesel truck mechanics—an extremely important asset in defense transportation. It was announced today by A. A. Shantz, general parts and service manager for the GMC Truck and Coach Division.

The program, which calls for 1,500 GMC Diesel mechanics and the establishment of 1,000 GMC Diesel Service Stations by the end of 1951, is ahead of schedule at the half-way point and may well go far past the original objectives, Shantz said. The Diesel mechanics trained include 462 GMC dealer personnel, 97 GMC company personnel and 135 trucking companies' personnel.

"The training of these Diesel mechanics will mean a great deal for the uninterrupted flow of vital defense materials by Diesel trucks throughout the nation," Shantz said. "The severe shortage of such mechanics may now be considered a thing of the past. GMC Diesel truck operators may be confident that anywhere they go, they will find our network of service stations ready with trained personnel and an adequate stock of parts."

Shantz added that the en-

thusiastic reception which GMC has had for this training program also indicated that many operators intended to shift to Diesel operations as soon as feasible. GMC truck, already possessing the largest Diesel servicing network in the country, undertook the expansion program because of the rapid trend toward Diesel operations. GMC today is the largest Diesel truck manufacturer in the nation.

Sikes and Sons Tiles, Inc., at 801 Evernia, in West Palm Beach, have an excellent selection of the highest artistry in tiling which they would be pleased to have you inspect. They are authorities on the correct laying of tiling.

They have been unusually successful from a business standpoint and have added much to the artistic beauty of many homes and public buildings in this part of the State.

While the use of tiling has been known for many centuries it has only been in general use since the beginning of this century. In America anyone is now able to secure what in old days was only for nobility. Tiling is coming into very general use as it is recognized as very res-

sonable in price when its lasting and sanitary qualities are taken into consideration.

In the employ of this company are the very best craftsmen and work is executed both with an eye to beauty and utility.

The manager is an authority on this class of work and will be pleased to assist anyone with their plans and give estimates on the work. They personally see that all work is executed on time and according to the letter of the contract.

In making this review we are glad to compliment this progressive concern upon this very highly specialized service and to refer them to all of our readers as worthy of a call when in town. For further information call 2-0215 in West Palm Beach.

Properly Prepared Food Aids Health

Where you eat, when you eat, and what you eat are the things of the utmost importance to your everyday life. Too few of us stop to consider how vitally important food is to our minds and bodies. We should not only give thought to the quality of the food, but also to the manner in which it is prepared and served. Before you eat, stop and consider the most likely place to find high quality food served in the most sanitary manner. Invariably you will think of Coney's Restaurant, at 310 Lakeview Ave., in West Palm

Beach. Here the finest foods the markets afford are served in an immaculate manner. The service is rapid, courteous and efficient.

Their daily menu consists not only of the prime necessities of life, but many delicacies are offered that are inviting and tempting to the taste of the most fastidious. Here you will find foods that are exceedingly appetizing, having that recognized home-cooked flavor which is so much in demand. Why not stop at this dining room for a delicious and appetizing meal? For information call 22846.

PALM BEACH COUNTY VALUABLE REAL ESTATE IN DEMAND

The oldest established Realty Co. in Palm Beach County is John H. Dayton at 255 Royal Palm Way in Palm Beach and he has many friends in the surrounding territory.

This very progressive concern is headquarters in this section for insurance and anything in the real estate line and enjoys the patronage and confidence from all surrounding territory.

In this day and age when conservative men are constantly seeking investments where they are not only assured a permanent source of income but a reasonable certainty of increasing value, the real estate dealer is doing more than his share to meet the demands of such men. This locality is indeed fortunate in having in its

midst such a firm as this well known agency.

This place has made it a point not to list property for sale for more than its true value. This is where close study of local conditions renders an authority on values. In all transactions this concern's word is as good as its bond and people have come to look to it when seeking a desirable medium through which they can deal with confidence.

This institution has been closely identified with growth and expansion of the section and has made a close study of real estate conditions so that it can offer both the buying and the selling public the very best service.

For further information call 4146 in Palm Beach.

SIGNS OF THE TIMES

Shaffer Sign Service, at 502 Datura in West Palm Beach, designs quality signs. They also maintain a convenient service department and service all neon signs.

These artists are thoroughly modern and original. No matter what you may desire, call up on them and they will arrange it for you at a most reasonable price.

There is no institution that is conducted in the country which is deserving of more favorable comment than this well known studio, for it is bringing before the public the signs of the times in a most comprehensive manner.

The score of the operations of this firm includes everything ancient and modern from the simplest sign to the modern sign of the most advanced type.

We all know that this business is an art within itself. In order to be such a master sign designer Mr. Shaffer has been

in business since 1939 — his prices are very modern and even the smallest business can afford a blazing sign.

Signs were the first language of primitive man, signs are the first language of the child today, signs are the language of lower Broadway, the world's busiest thoroughfare. The development of the modern sign from the primitive marks and pictures to the highly mechanical sign is a long evolution. It marks the progress of the race and has advanced with it. We live in a busy age and many are too much occupied to look up in directories the addresses of people and firms, but more in the lines of least resistance, in going shopping for many things.

The board walk at Atlantic City and the roaring forties on Broadway in New York are an accentuation of this condition of modern life. Free estimates gladly given. Call 2-3461 in West Palm Beach.

WHY BUY NEW RUGS?

Hatfield Rug Cleaning Co., 5301 South Dixie, West Palm Beach, offers a complete rug and upholstery cleaning service and they also do repairing, altering and binding.

This is one of the best and most reliable concerns in this section of the country and enjoys an ever increasing patronage.

The most approved methods have been installed and all work is executed in a highly scientific manner. If you will turn over your work to them you will find that you will be saved the purchase of many new carpets and rugs by the high grade work which this plant features.

They offer cut-of-town customers the very best of service in all departments.

Their service has always been efficient and courteous. As a result their business grew to such proportions that they found it necessary to provide a modern plant. This they did and they now have one of the most modern in the country.

In this review embracing as it does the most salient features of our onward progress, we wish to commend this firm upon the valuable service it is rendering the local public.

On your next trip to West Palm Beach come in and see them.

YOUR BUILDING PROJECT

Nothing is more important in letting a contract than the reputation of the man who bids for your work. Many of the fine structures you see throughout the country were not erected by the lowest bidder but by the man who had the reputation of adhering to specifications.

To perform a task but a little better than is required will secure for anyone, particularly

a contractor, a recognition that will carry him far. The prospective builder will find there is a fund of information and advice that is most helpful when dealing with McLaren Bros.

Construction, located in the Co-mau Building in West Palm Beach. This will be given in such a manner that it is once clear to the layman.

Their wide experience makes in

New PTA Officers Installed At Last Meeting Of Season

Mrs. A. E. Kirchman, past president of PTA installed incoming officers at the organization's last meeting of the year held Monday night. Installed President, Mr. Milton Burry.

First vice-president, Mrs. E. M. Lively. Second vice-president, Mrs. Guy Wood, Jr., Secretary, Mrs. W. T. Simmons, Treasurer, Mrs. J. A. Pike, Parliamentarian, Mrs. W. C. Bamford, Historian, Mrs. B. A. Boots, Delegate at large, Mrs. L. P. Parson.

Retiring president, Mrs. L. P. Parson read the list of past presidents and introduced Mrs. Kenneth Lutz who served in 1932-34 and Mrs. Ralph Freeman, 1948-49 who each reported on PTA activities during their term of office.

Room count went to the second grade.

A fund of \$25.00 for each of two delegates to attend the PTA convention at Florida Southern University June 21-23 was voted. Mrs. L. P. Parson was elected as a delegate and Mr. Milton Burry alternate.

A program on art was in charge of Mrs. B. Q. Waisel who displayed and commented on works of local students.

Mr. Frank Holson told of preliminary plans for the new high school and announced the contract would be let after July first.

Activities of the Community Youth Center were reported by Mrs. E. D. Humphries who also announced the need for more sponsors and chaperones.

Prizes were voted for county contest spelling bee winners Esther Friedheim, Pat Weaver, Milly Nash and Jeanne Crewes. Mrs. R. L. Murray reported on the two study courses of PTA, "The Pre-school Child" and the "Minimum Foundation Program" recently completed.

Hostesses were Mrs. Ray Whitlock, chairman, Mrs. A. L. Wallace, Mrs. C. W. McClure, Mrs. Carl Hayes, Mrs. W. J. Evans, Mrs. R. A. Cameron, Mrs. Sam Berry, Mrs. Lester Clark, Mrs. Sam Knight, Mrs. Jessie Motes, Mrs. R. Y. Creech, Jr., Mrs. J. E. Thompson, and Mrs. Kenneth Lutz.

FLORIDA NATIONAL BANK

at Belle Glade
PRESENTS
INTERESTING FACTS ABOUT FLORIDA

BEACHES

The low-lying sand islands, reached by bridges, and causeways, parallel both coasts and form most of Florida's beaches. Beaches of the Gulf from Pensacola to Ft. Myers, compete with those along the Atlantic as summer resorts. Where the white sand is firmly packed, the beaches serve as motorways and playgrounds. The most famous of the beaches are Miami, Jacksonville, Daytona, and Panama City.

We take great pride in welcoming Small Enterprises to our community, and this bank considers it a privilege to welcome them as customers. They have become associated with us because they want to grow with a bank that is growing—one that is small enough to give them undivided attention in personal and business matters—one that is large enough to meet their credit needs.

If you intend starting a business, regardless of how small it may be, you will find a most cordial welcome at our bank.

Dea. W. House. Again the senior choir rendered the song service. The sermon was delivered by Rev. P. Beasley. The Lord's Supper was administered to members and friends.

The Supt. wishes to thank his many friends out at the Experimental Station for cooperating with him in helping to raise funds for the Sunday School convention, which will convene in Stuart May 24-27 at the Macedonia Baptist Church.

We are grateful to know that Bro. E. H. H. Benjamin has returned from the hospital and is getting along fine. He is the president of the Senior choir. He was missed very much by the choir and church. We pray that the other sick members will have a speedy recovery.

Sunday May 20 is Women's Day. All the ladies are urged to participate in this program. The public is cordially invited to attend this program.

Monday night the Sons of King Solomon Jubilee singers will render a program in the interest of the Women's Home Mission. The public is also welcome to attend this program. And remember you are always welcome to attend our church service.

Everglades Vocational High

At the end of the school year draws near, we, the students of E. V. H., are busy preparing for our closing school activities. We wish to make this year's Commencement program the best ever. With the guidance of our principal and teachers, we shall succeed in our effort. The public is cordially invited to attend each of our activities.

Calendar of Events
Senior Class Play, "The Closed Door"—May 14, Inter-mediate Operetta, "Hoory or Youth"—May 16 Fashion Revue—Date to be announced.
Junior-Senior Promenade—May 25, Baccalaureate Service—May 27, Senior Class Night—May 28, Sixth Grade Commencement—May 29, Commencement, Exercise—May 31.

The Elementary Mothers Club of E. V. H. sponsored an outdoor party for the elementary children Tuesday, May 8, 1951. The parents and teachers enjoyed playing games with the children, after which refreshments were served. Everyone enjoyed this entertainment.

Mrs. Arnie Singleton, member of the Elementary Mother's Club, is confined at Pine Ridge Hospital, West Palm Beach. The Mother's Club sent her a lovely bouquet of flowers. We are wishing for her a speedy recovery.

The Senior Class presented its play, "The Closed Door," Monday evening, 8:30 p.m. This comedy-drama was well received by students and parents. The cast included Bernice Rhodes, Christine Wynn, Ora D. Fields, Emma L. Austin, Bernice Holmes, Leviria Leavelle, Albert Wiley, Willie Davis, and Herbert Collins.

"TOO LATE TO CLASSIFY"

By Russell Kay
I've been called on to annoy a lot of different groups with so-called talks on a variety of subjects, but last week I think I drew the prize assignment. My friend Samuel A. Harper, president of the Florida Anti-Mosquito Association, asked me to talk to his group on the subject of "Mosquitoes and How to Deal With Them."

Now I am just about as well versed on the subject of entomology as a polar bear would be on the subject of astrology. Anyhow, I let him talk me into it. Just to get in the mood I went out on a salt marsh and communed with the pests and, while my talk may never appear as a textbook, here are some of my observations.

Mosquitoes are like humans in one respect—only the females bite. Now I've never been much of a lady's man, but there's one thing I do know, if there is a fool mosquito within 10 miles of me it is sure to be a female.

I understand that Arthur Murray has made a lot of money teaching people to dance, but I know several places in this state where the mosquitoes will teach you to dance for nothing. Let 'em go to work on you in earnest and I'm telling you they will teach you everything from the Indian Snake Dance to the Highland Fling in three minutes flat.

I have always felt that the entomologists and bug men ought to be able to figure out some way to put mosquitoes to work as human benefactors instead of just letting 'em run wild and annoy people.

With all the blood banks screaming for donors, why can't they develop a flock of trained mosquitoes that would go out

THE COACHWIP SNAKE

Accommon snake of the Southeast is the Coachwip. It is black on the head and neck, tan elsewhere. It reaches a length of nearly eight feet. Its slender build, color, and large, overlapping scales cause it to resemble a broad-sided whip, this occasions the common name. Some people believe that a Coachwip will actually whip a person, but this is completely false; it is entirely harmless to man. It feeds mainly upon mice and rats, but sometimes also eats lizards, other snakes, small birds, or eggs. It is one of the fastest reptiles, and has been clocked at 18 miles per hour.

And gather hold just like the bees gather honey."

With a little experimenting and research, the bug men ought to be able to develop a new strain that could do the job. They could attempt to breed mosquitoes that would have a greater flying range and greater carrying capacity.

Then they ought to be able to figure out a way to have them inject novocaine into their bite instead of saline so that the donors would feel no pain or annoyance. They might even develop a way of silencing the buzz.

Think what a blessing it would be to know that our hospitals, by maintaining hives of such mosquitoes, would never have to worry about blood for their transfusions.

I don't know how many different kinds of mosquito repellents there are on the market, but I think I have tried most of them and so far haven't found one that will even annoy a determined insect.

I remember one time a fellow told me that if I would eat plenty of onions and garlic the mosquitoes would leave me alone. It was a particularly bad season for the pests and I took him up on it. I did eat a lot of onions and garlic for a week or more. Well, it didn't keep the mosquitoes away but it did keep everybody else "out of range." I am like a cross between an Italian restaurant and an east side delicatessen.

Then we have a lot of blind mosquitoes in this state. The entomologists tell us that we don't have to worry about them because they don't bite. Well, may be they don't bite, but, brother, they will trouble you to death. I remember getting' mosqued up with a flock of 'em over in Brevard county one time. I was glad I only had one nose, two eyes, two ears and a mouth. I don't know whether you have ever tried to breathe with one eye and nose and mouth packed with blind mosquitoes or not, but I'm telling you it is quite a trick— you ought to try it some time.

But all kidding aside, I was really honored to be selected as the speaker for the Anti-Mosquito Association banquet for as a newspaper man, I know what a swell job these fellows are doing in helping to rid this state of the dangerous and annoying insects.

They are making real progress in their work and I expect to see the day when most of Florida will be free of mosquito bites, sand flies and other troublesome pests. The job need more funds to finish. They need this is one investment that will pay handsome dividends. More power to them, and the sooner they kill off all the mosquitoes and spray themselves out of a job, the better I'll like it.

NPA CALLS COUNTY MEN TO ATTEND SPECIAL MEET

An urgent call to any business man in Palm Beach County who may be directly or indirectly affected by the "controlled materials plan" of the National Production Authority, U. S. Department of Commerce, to meet in Atlanta May 21 to hear the plan explained is being sent out by Merrill C. Loft, Commerce Department Regional director in Atlanta.

The "controlled materials plan" is being applied by NPA to three of the nation's basic metals, steel, aluminum and copper, effective July 1. Its operation will affect the manufacture and fabrication of many products containing those metals and the purpose of the Atlanta meeting is to make it possible for all phases of the plan to be explained and questions concerning its operation answered.

The meeting, open to all businessmen in Alabama, Florida, Georgia, Mississippi, South Carolina and Tennessee concerned

DR. KIDDER TO HOLD RABIES CLINIC SATURDAY

A Rabies Clinic for dogs will be held by Dr. Clarence Kidder at the South Bay Town Hall Saturday from 10 to 12 o'clock in the morning. All owners of dogs which have not as yet received the inoculation against rabies for their pets are urged to take advantage of this opportunity.

By Ordinance No. 79 of the Town of South Bay, all dogs within the town limits must be inoculated against rabies, registered and licensed at the Town Hall where dog tags will be distributed. The ordinance is now in effect and dog owners will be given a limited time only in which to comply.

Licence fees are \$1.00 for males, \$3.00 for females. The inoculation fee will be \$1.50.

All dogs not duly licensed and found running at large will be impounded by town officials. They may be redeemed within a reasonable time by paying the impounding fee and board for the animal. Animals not redeemed will be turned over to the Animal Rescue League.

SOUTH BAY BAPTISTS TO GIVE PLAY SUNDAY

A BYPU play will be presented at the South Bay Baptist Church Sunday evening. Those taking parts are Mrs. O. H. Martin, Mrs. Agatha Best, Jack White, Kevin J. N. Purcell, Patricia Cato and Tony Woodham.

The rite of baptism was administered to nine prisoners at the Everglades Prison Farm to take place in a canal adjacent to the prison quarters. Saturday by the Rev. James N. Purcell, Supt. Green had made arrangements for the ceremony.

TAYLOR FAMILY HAS MOTHER'S DAY REUNION

The Taylor family of Bare Beach observed Mother's Day as a family reunion picnic at Fishing Creek in honor of their mother Mrs. Ben Taylor who is 84 years old. Others in the party were Mr. and Mrs. Charles Booth and family, Mr. and Mrs. Ray Taylor and family, Early Taylor of Pearson, Ga., Mr. and Mrs. W. M. Wilder of Lake Harbor.

BARNES HAVE FAMILY REUNION DINNER SUNDAY

Mr. and Mrs. A. B. Barnes of South Bay entertained at a family reunion dinner Sunday. Guests were: Mrs. Marvin Miller, Billy and Sue, of Okechobee, Mr. and Mrs. Elbert Hester and Miss Betty Hester of Lake Harbor, Mr. and Mrs. Jesse Barnes and Mrs. C. G. Payne of South Bay. The group attended Mother's Day services at the South Bay Baptist Church in the morning.

4-H GIRLS TO HAVE ACHIEVEMENT DAY THURS.

The Girl's 4-H Club of South Bay will conduct their semi-annual local achievement day at the school on Thursday with exhibits in sewing accomplished during the second semester's work.

Plans will be made at that time for those who can attend the County Achievement Day program in West Palm Beach on Saturday.

VETERANS INFORMATION AND SERVICE

By Melvin T. Dixon, State Service Officer NEW INDEMNITY AND INSURANCE ACTS OF 1951. The so called "free GI Insurance" bill became law on April 25, 1951 with the signature of the President of the United States.

Known as the Servicemen's Indemnity and Insurance Acts of 1951, the law is divided into two parts and both will be administered by the Veterans Administration. It has been designated Public Law 23, 82nd Congress.

With certain exceptions, the law ends the issuance of new insurance under U. S. Government Life Insurance (USGI), which originated just prior to World War II.

Term policies under USGI and NSLI that are in a state of lapse (AS DISTINGUISHED FROM EXPIRATION) may be reinstated on or before, but not after, their term period has expired. Also, permanent plan policies, in a state of lapse, may

be reinstated at any time, provided reinstatement requirements are met.

At this point I wish to emphasize the fact that veterans MUST REINSTATE their lapsed 5-year level-premium-term policies before the term period has expired, otherwise, the term policy can never be reinstated.

Examples: 1. Veteran Jones was granted 5-year Term NSLI on July 1, 1946. Because of non-payment of premiums, he let his policy lapse at discharge, June 1945. He is still entitled to reinstate his insurance at any time prior to midnight June 30, 1951, since this is the date on which his original term period — 5 years plus three years extension — will expire.

2. Veteran Brown applied for NSLI 5-year Term February 1, 1946, and let it lapse for non-payment of premiums. He may not reinstate his insurance since the 8-year period expired at midnight March 31, 1951.

3. Veteran Green applied for NSLI 5-year Term April 1, 1946, and let it lapse for non-payment of premiums. He is not entitled to reinstate the policy since the 3-year period expired at midnight January 31, 1951. Term policies issued on or after February 1, 1946 are for 5 years only.

Any valid application for new insurance, NSLI or USGI, placed in the mail addressed to the Veterans Administration, or placed in proper channels of any of the Armed Services on or before April 25, 1951, will be accepted.

FARMS IN CO. DECREASE IN 1951 CENSUS SHOWS

The number of farms in Palm Beach county last year was less than in 1945, according to information received here from Merrill C. Lofton, southeastern regional director of the U. S. Department of Commerce in Atlanta.

Releasing an analysis of the 1950 census of agriculture conducted by the Commerce Department's Bureau of the Census, Mr. Lofton said the number of farms in Palm Beach county in 1950 was placed at 849 compared with 1,139 in 1945.

Last year, the Census Bureau in taking the census of agriculture along with the census of population and housing, defined a farm as land of 3 or more acres on which agricultural products, except those of home garden, valued at \$150 or more

were produced, or land of less than 3 acres on which the value of products sold amounted to \$150 or more. In 1945, the definition was land on which products valued at \$200 or more were produced with no reference to home gardening or products sold.

In the State as a whole, the Census Bureau also recorded a decline in the number of farms from 61,159 to 56,840. A total of 40 counties in the state recorded decreases in number of farms, and 27 reflected an increase.

Other features of the 1950 census of agriculture will be made available at Commerce Department field offices in the near future without charge, Mr. Lofton said. These will include the value of commodities produced, number of farm operators, facilities used, and information of that kind. The field offices at which such data will be available include those in Jacksonville, Tampa and Miami.

HOLD ON!

First see what GMC's got!

WHETHER you need a pickup model or a tonnage rig — a GMC's the best buy you can make in trucks today for the long haul ahead. Here's truck-built horsepower — solidly engineered to give you more "go" when you need it — and a GMC's got what it takes to go with it!

A broad-shouldered frame to put left to the load — longer "pillow-action" springs to protect it. Smooth Synchromesh Transmission of power — and

real truck-sized brakes (extra wide) to control it. And more.

From the Weathersealed comfort of the "Six-Footer Cab" to such extra-value features as these — Tocco-Hardened Crankshaft, full-pressure lubrication and recirculating ball-bearing action for steering ease — a GMC is built for keeps!

As your GMC dealer, we can help you select exactly the right truck for your hauling needs — from ½ to 20 tons — with a combination of axle, engine, transmission and frame that will haul the pay load years longer for less.

NEW faster service anywhere in the U. S. Exclusive rapid road service for GMC owners! Western Union by number, ask for Operator 25. We'll supply the name of the GMC approved service dealer nearest you, anywhere, anytime.

The difference goes more than Skin-Deep

Nobody wonders what you're driving when you roll by in this one.

In the 1951 line-up, its brand-new front-end styling stands out with a beauty all its own.

You're the proud owner of a Buick — and the whole world knows it.

But you — at the wheel — enjoy a long list of differences that go far deeper than looks.

The ride is different — level and true. You sit the road with special assurance because Buick's torque-tube drive keeps rear wheels firmly aligned — soft coil springs on all four wheels soak up the bumps and bobbles — honest weight keeps you on a steady keel.

The power is different — eager and sure. Buick's high-compression Fireball engine does wonders with fuel — and no matter what you demand in emergency, there's horsepower to spare.

Handling is different — this car seems to steer itself on straightaway or curve — and swings lightly into parking spots inches shorter than you'd think you need.

Capping it all, there's the silken versatility of Dynaflow Drive,* that takes all the tenseness out of driving — responds to your slightest wish with a surging swoop of power.

No doubt about it, what you get in a Buick is far more than just a new car — it's a whole new experience in getting pleasureably from here to there.

So why not explore this difference? Come, take a Buick over and find out how very much satisfaction smart money can buy.

Equipment, accessories, trim and models are subject to change without notice.

No other car provides all this!
